Szilvia Ovari

Junior Software Developer

About Me

I'm a motivated junior software developer with good communication skills. I approach tasks with accuracy, responsibility, and always meet deadlines. I'm eager to grow professionally — challenges inspire me, and I enjoy learning new technologies and gaining hands-on experience.

Projects

Practice projects during school, including creating my own personal website with interactive features and responsive design.

Strenghts

I am highly adaptable and quickly learn new skills, applying them effectively. I enjoy finding innovative and practical solutions to challenges. I am a strong team player with good communication skills and detail-oriented.
